OBJECTIVE

Software Engineering graduate with hands-on experience in **React.js**, **Node.js**, **Express.js** and **Generative AI**, skilled in **LLM integration**, **prompt engineering**, **RAG** and **API development**. Seeking opportunities to build scalable software solutions and **AI-powered applications** while contributing to real-world engineering projects.

EDUCATION

BOKARO, JHARKHAND | 2020-2024

B-TECH IN COMPUTER SCIENCE AND ENGINEERING

Guru Gobind Singh Educational Society's Technical Campus

8.71 CGPA

Coursework: Oops, Data Structures and Algorithms, Operating Systems, DBMS, Computer Networks

EXPERIENCE

June 2025 - Present

Web Developer, DigiCrow

- Developed **end-to-end web applications** using HTML, Tailwind CSS, JavaScript, PHP, and MySQL, ensuring **smooth frontend-backend integration**.
 - Built dynamic, **reusable UI components** and implemented server-side logic for data-driven and interactive user experiences.
 - Managed backend operations including form processing, validation, and database (MySQL) **CRUD functionality**.
 - Integrated **secure payment gateways** and performed testing/debugging to enhance transaction reliability and overall system stability.
-

PROJECTS

AI PERSONA CHATBOT

[GITHUB LINK](#)

NODE.JS, EXPRESS.JS, TAILWIND CSS, GEMINI API, GENERATIVE AI, PROMPT ENGINEERING

An **AI-Powered Persona Chatbot** using **Generative AI** and **LLM-based prompt engineering** to simulate conversations with popular personalities.

- Developed a **Generative AI** conversational application using the **Gemini LLM API** to generate persona-specific responses based on communication style and teaching approach.
 - Engineered structured prompts** and persona models defining tone, vocabulary, personality traits, technical domains, and behavioral rules.
 - Built a **Node.js** and **Express.js REST API backend for LLM integration**, request validation, **asynchronous response generation**, and JSON response parsing.
 - Implemented **dynamic persona switching** with **configurable prompts** and dedicated API endpoints, along with a responsive conversational UI.
-

SELF-CONSISTENCY

LLM ANSWER ENGINE

[GITHUB LINK](#)

TYPESCRIPT, GEMINI API, OPENROUTER, OPENAI SDK, LLM ORCHESTRATION, PROMPT ENGINEERING, ZOD

A CLI based **Self-Consistency LLM Answer Engine** using **Generative AI & multi-model orchestration** to generate refined answers from multiple AI responses.

- Developed a **GenAI** application using **TypeScript**, **Bun**, **Gemini**, and **OpenRouter** to orchestrate **multiple LLMs** and improve answer quality.
- Implemented **parallel LLM inference** to collect, validate, and process responses before evaluator-based answer synthesis.
- Designed a provider-agnostic architecture using **Strategy and Factory design patterns** for scalable **multi-model integration**.
- Implemented **prompt engineering**, streaming responses, error handling, **Zod validation**, and structured logging for a reliable AI workflow.

ALUMNI-DOOR

[GITHUB LINK](#)

REACT.JS, CONTEXT API, NODE.JS, EXPRESS.JS,
TAILWIND CSS

A **Role Based Alumni Networking Platform** connecting alumni and students for mentorship, career guidance, and networking.

- Developed a web platform connecting alumni and students for **mentorship, networking, and career guidance**.
- Built dynamic UI with **reusable React components and Context API for state management**.
- Implemented a **real-time chat interface** by integrating WebSocket APIs with JWT authentication
- Integrated **RESTful APIs for article management**, enabling features like create posts, likes & shares.
- Integrated backend APIs to manage alumni data and event information.
- Designed responsive and accessible interfaces for both desktop and mobile devices.

SKILLS

Technical Skills:

- **Languages:** C++, JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Tailwind CSS, Material UI
- **AI & Generative AI:** Generative AI, LLMs, Prompt Engineering, Gemini API, OpenRouter, RAG
- **APIs & Tools:** RESTful APIs, OpenAI SDK, Postman, Git, GitHub, Figma, Bun, Node
- **Databases & Cloud:** MySQL, AWS, Qdrant

Soft Skills: Problem Solving, Analytical Thinking, Communication, Team Collaboration
